

The Primary Care Quality Improvement Network would like to invite you to participate in the development of a Quality Management System for Prescribing in Angus.

We will provide an Introduction to Quality Management Systems as per the 4 strands in the graphic below, and invite you to discuss how we can bring these different approaches together into a single quality system to meet our goals and improve care around prescribing for our patients.

The event will be attended by a range of stakeholders including: Patients, Carer & Advocates, Cluster & Practice Quality Lead GPs, Pharmacists and Pharmacy Technicians, Community Pharmacy Representatives, Health & Social Care Managers, Consultants. Non medical Prescribers and Finance representatives.

**The session will be held online :
Friday 2nd July
from 9:30a.m. – 12:00p.m.
A link to Microsoft Teams to follow**
